Northwest BPA Why is there more litter along county roads?

By Mike Brady
Knoxville, Tennessee

What do you think about the litter that is so common along our roads?

The answer is, "I don't know." But I do know that it is a problem. I have seen it many times. I have seen it on the side of the road. I have seen it in the grass. I have seen it in the bushes. I have seen it in the trees. I have seen it in the water. I have seen it in the air. I have seen it in the ground. I have seen it in the sky. I have seen it in the earth. I have seen it in the sun. I have seen it in the moon. I have seen it in the stars. I have seen it in the planets. I have seen it in the galaxies. I have seen it in the universe. I have seen it in everything.

That's why I think people should be more responsible. They should be more careful. They should be more thoughtful. They should be more considerate. They should be more respectful. They should be more polite. They should be more kind. They should be more generous. They should be more honest. They should be more truthful. They should be more fair. They should be more just. They should be more compassionate. They should be more empathetic. They should be more understanding. They should be more forgiving. They should be more patient. They should be more tolerant. They should be more accepting. They should be more inclusive. They should be more welcoming. They should be more open. They should be more honest. They should be more truthful. They should be more fair. They should be more just. They should be more compassionate. They should be more empathetic. They should be more understanding. They should be more forgiving. They should be more patient. They should be more tolerant. They should be more accepting. They should be more inclusive. They should be more welcoming. They should be more open.
