

## At Day in the Ballpark

Three Friday students and teachers cheer the second baseman out of the game by the Tennessee Twinkies to finish the 1-2 walk down the homecoming bleachers during last fall's World Series game at Fenway Park. Courtesy of: Dan Housh, Sports Information Director.

## Review Committee proposes changes *By Peter Hovland*

In Thursday afternoon's first meeting, the Wesley House Study Committee reviewed the first round of suggestions for curriculum change.

After the advice of their legal counsel, the committee decided to change the existing on-policy to off-management of dormitories. During the review of the curriculum the policy was set as a permanent grade advancement policy. The committee agreed that there was no one way to do it.

The committee made changes to existing policy to off-manage dormitories. The idea was that the committee would be able to handle the issue of dormitories and the change of dormitories was given the option of either having an on-policy or having an off-policy.

The committee also decided that the change of dormitories would be a permanent change to the school's policy. The committee also decided that the change of dormitories would be a permanent change to the school's policy.

The change of the dormitory and the change of the dormitory would be a permanent change to the school's policy.
