Council to consider short-term rental ordinance

By [Name]
 The City Council is expected to consider a new ordinance that would regulate short-term rentals in the city. The ordinance would require landlords to obtain a license and pay a fee to rent out their properties for short periods of time. The ordinance would also require landlords to provide certain amenities and services to their guests. The ordinance is intended to protect the city's residents and businesses from the negative impacts of short-term rentals.
