Sharon's change in opinion is difficult to see but her comments go beyond the obvious matter of the redefining reality in a more neutral and generalist manner to reveal a connection to the new discourse of the new feminism.

... (Koch, 1997, p. 100). The author argues that the concept of 'self' is not a fixed entity but a process that is constantly being constructed and reconstructed through social interactions and cultural contexts. This perspective challenges the traditional view of the self as a stable, coherent entity.

The authors' conclusions are a welcome part of the discussion, notwithstanding the observation that such reasoning can be flawed about the role and impact of the Internet. I can only assume that the

the word *recess* in *Article IV* of the Constitution. Although the words for all recesses are the same, the Supreme Court has held that the word *recess* in *Article IV* means a break in the work of the office, as opposed to the recesses of the Congress, which are the breaks in the sessions of the Congress.

It is important to note that the results of this study are based on a cross-sectional design. Therefore, the causal relationship between the variables cannot be established. Future research should use a longitudinal design to investigate the changes in the variables over time.
