Brock's spirit endures as RAM prepares for free Knoxville Clinic

By Mike Steely stéelym@knoxfocus.com

Stan Brock, founder of Remote Area Medical, passed away last August but his spirit will be with the organization as they prepare for the 1,000th medical clinic. Held at Chilhowee Park's Jacob building at 3301 East Magnolia Avenue over three days from February 1st to February 3rd, the non-profit provider will deliver free, high-quality medical, dental, and vision services including eyeglasses made on site, women's health exams and general medical exams.

Patients for the Knoxville RAM clinic may be able to register their unaltered household pets for free spay and neuter surgery as well as vaccinations, city dog tags, and microchipping. The pets should not be taken to the clinic.

RAM will open patient parking through Gate One no later than 12 midnight may call (865)579-1530.

on the first day of the event and ticket distribution usually begins about 3 a.m. The process repeats on Saturday and Sunday, February 2 and 3. Patients are being urged to arrive early, especially those seeking dental service.

The city of Knoxville has 26.5% of the population at or below the national poverty rate of 12.5%. Nearly one in six people under the age of 65 lack health insurance coverage. RAM expects about 1,000 people from Knoxville and surrounding communities to seek medical service.

"We are so excited to hold our 1,000th expedition, offering free dental, vision, medical and veterinary care right here where it first started in 1985," said RAM CEO Jeff Eastman.

Senators Richard Briggs and Becky Duncan-Massey answer questions

By Mike Steely steelym@knoxfocus.com

Knox County state Senators Richard Briggs and Becky-Duncan Massey answered questions from an audience at a League of Women's Voters forum Saturday. The event, held at the Knoxville News Sentinel, drew a sizable audience and began with a greeting from LWV President Linda Maccabe, who reminded everyone that next year will be the organization's 100th birthday.

She also said that Senator Randy McNally could not be there because of an engagement in West Tennessee. The LWV president also recognized Senator Massey's birthday and presented a birthday cupcake with two candles.

Massey said the change in this year's legislature is the "biggest change since the Civil War" noting that 34 new members are joining both houses of state government.

The senators said that the new governor, Bill Lee, may bring proposals they can support including judicial and sentencing reform and expansion of career and technical educa-

Both Massey and Briggs agreed to continue to push for health care reform, noting they had supported former Governor Bill Haslam's failed effort to reform it. Briggs mentioned health care and noted the state is still at the bottom of the nation. He

said the state is not making progress on health care and said it has slid

from 34th to 36th.

Briggs said that if the state chooses to take part in the Medicaid program that \$1 to 1.2 million would come to Tennessee in federal funds paid by state taxpayers. He bemoaned the closure of hospitals including the two in Knoxville.

Both said they are working to revise a health care plan that could be passed in the strongly Republican state houses.

"Our TennCare is the envy of the nation but we could get almost all our citizens insured," Briggs said.

Massey said one of the health care

You wouldn't think of Mary Catherine (Hodge) Halsey as an important major book author. She wasn't. But to the many graduates of the now closed Rule High School, she is THE most important book author they know. "Golden Memories Of Rule High School, A History" was that book. Mary passed away in Atlanta, Georgia, December 4, 2018 at the age of 90.

Born in Strawberry Plains, growing up in Knoxville, Mary was a 1946 graduate of Rule High School and was selected as "Most Studious" of her senior class. After graduation from Rule, she attended Hiwassee College. She married William Ingram form Vonore, Tennessee. They moved to Atlanta, Georgia where they had one child, a daughter, Annette. The family then to located to Detroit and reconnected

during the 50's and 60's Mary worked at Fruehauf and later for the Teamsters Union during Jimmy Hoffa's term. She subsequently worked directly for Frank Fitzsimmons, Jimmy Hoffa's replacement. After the Teamsters, Mary began working for the Social Security Administration, transferring to Ventura, California in 1962 and then to San Francisco and Vallejo. She then transferred to Phoenix, Arizona, marrying her second husband, Keith Halsey, and eventually retiring there. In 1981, Mary moved back to Atlanta to be closer to her daughter and grandchildren. Another move back to her roots to Knoxville was necessitated by helping care for her brother Walter "Junior" Hodge, Jr. during his illness before passing. return

classmates whom she had not seen for about 50 years. In an effort to promote the memory of Rule High, Mary was instrumental in initiating still ongoing Rule High School breakfast meetings. Along with her interest in keeping the memory of Rule alive, Mary, upon reading a story in the newspaper about a school museum opening in Historic Knoxville High School, showed up at the Knox County Museum of Education the very next day to offer any assistance she could. She became a valued contributor to the Museum, volunteering time, items for display, as well as monetary contributions. She continued her support of the Museum from afar after a final move back to Atlanta to be closer her daughter and grandchildren, where she

Dearborn, Michigan, where relatives, friends and Rule work with the Museum and continuing efforts to keep Rule High memories alive, Mary developed an interest, with encouragement and support of other Rule graduates to write the historical account of Rule High School......hence her book, published in 2006. Mary received an award from the East Tennessee Historical Society for this publication.

Copies of "Golden Memories Of Rule High School, A History" are still available at the Knox County Museum of Education. Prior to learning of her passing, the museum, with support of Rule High graduates, was in the planning stages of making a display case in Mary's honor. What Are Punitive Damages?

A term you may have heard of is punitive damages. But what exactly punitive damages? Punitive damages those damages that go beyond just compensating a Plaintiff for their injuries, but are

designed to punish the Defendant for their actions. Even though punitive damages are designed to punish the Defendant, any punitive damages that are actually awarded, are given to the Plaintiff.

Most people have heard of a case that involved a big award of punitive damages without realizing it, and that is the McDonald's hot coffee case. While some juries will give individuals unreasonable amounts of money, let's dive in to the actual facts of the case.

79-year-old Stella Liebeck pulled through the McDonald's drive-thru and ordered a coffee and then pulled in to a parking space in the McDonald's parking lot. The coffee spilled in her lap which resulted in second and third-degree burns on her thighs, buttocks, groin and genitals. The burns were severe enough to require skin grafts and resulted in permanent injury to her genitals and groin requiring

surgery. Ms. Liebeck was willing to settle her case against McDonald's for \$20,000.00, which was the cost of her medical expenses related to

incident. However, McDonald's refused to settle for that amount. Then it came out as the case progressed that McDonald's had received hundreds complaints from customers

of their coffee

causing burns. At the trial, the jury decided that they would award punitive damages and punish McDonald's for not listening to all of the complaints they had received about their coffee being too hot and it causing injuries.

The jury awarded Ms. Liebeck \$2.7 million in punitive damages. Not because Ms. Liebeck deserved it, but because media outlets and lobbyists they wanted to punish have used the award in that McDonald's. This amount case to decry the legal equaled only two days of system and to show that total coffee sales revenue for McDonald's. That's how the jury came up with that

number. So the story of the McDonald's coffee case is not the story of a jury running wild, but more of a jury taking advantage of the ability to award punitive damages to punish a Defendant for their behavior (or non-behavior).

Save Our Signs could use funds

Back in 2010 Reily Foods, the owners of JFG Coffee, donated \$15,000 to Knox Heritage and "Save Our Signs" was initiated to restore the historic JFG sign that stood on the south bank of the Tennessee River across from downtown Knoxville for about 50 years. But saving the JFG sign wasn't the only historic sign project taken on by Knox Heritage.

Todd Morgan, executive director of Knox Heritage, spoke with The Focus recently of the restoration during the project of the Pizza Palace sign on Magnolia Avenue, the restored with new LED light Regas Restaurant sign on the Regas Square The sale of the old light downtown, and the Princess Theater sign in Harriman.

The Save Our Signs JFG Coffee was founded campaign originally was to help restore old signs in Knox Heritage's 15 county area but eventually ran out of funds. So, this is a good day to tend to love, and appreciate your houseplants. Make sure they are well watered. Today would be a good day to give them a little fertilizer. Houseplants should be appreciated as they have many beneficial qualities, including purifying the air and eliminating toxins from the environment. Plants also release moisture into the air, providing humidity that can make your house feel cooler. Maybe today would be a good day to give a houseplant to a friend, perhaps an elderly neighbor or shut-in. Getting to know KEVIN MURPHY

The Knoxville Focus is sitting down and chatting with interesting people in our area to let you, our readers, get to know them beyond their normal duties or functions. We've picked people who are public figures, community leaders, or simply interesting people.

This week we get to know Kevin Murphy.

One of the most active members of the Knox County Board of Zoning Appeals is a Florida native whose family goes back to the days before the Civil War in our area. Kevin Murphy now lives in a beautiful farmhouse he had restored. Built in 1841 by his great-great-great grandfather Hugh Murphy, the restored family home is just part of the love of history that Murphy brought to Knox County.

As former chairman of the Zoning Appeals Board, Murphy has also served on the board of Knox Heritage and is a community activist, speaking out for preservation and the application of zoning rules.

How is your position with BZA working out?

I was chair last year and I'm in my last year. It's been a great experience. It's more of a judicial body with rules that require strict interpretation vs a legislative body that makes policy. It's sort of a safety valve when zoning ordinances meet the real world and aren't quite perfect. We've gotten so much better during my nine years, more focused. I'm proud of all the members. We have a full and open discussion at the meetings, but never outside

the meetings. How has that position affected

your business or private life?

cybersecurity software engineer with teams all over the country. I have work trips to Washington, D. C. My work gives me an opportunity to work from the old farm house. Working on a cyber threat, and then looking up from my screen out at a completely different world - rural pastures and agriculture - is something that never ceases to amaze me.

Tell us about your family.

My dad was born in Knoxville and his family moved to Florida when he was young. This farm was my grandparent's summer home and one weekend a year we would all come for a Family Reunion. On a Saturday afternoon we would set in lawn chairs in a circle in the back yard. I have a brother who lives in Nashville.

working in Dayton, Ohio, when I work for Broadcom, as a I took a trip to Australia. While there I asked myself "Where does home feel like?" The answer was that old farm in Knoxville. I'm single so I have had a lot of

> not finished restoring the farm. I've become the family historian. There's more preservation needed at the outbuildings. What are your hopes for the

city and county and a Metro-Type government?

It would have its advantages but I don't think it will happen. We would benefit but I don't think the voters would go for it. The corner of Murphy Road and Washington Pike is the real separation of city and county, sort of a "hard stop." From there you've got about two miles before scattered houses re-appear and out here people I was born in Florida and was kind of like driving through this

rural countryside setting.

What are your main interests or hobbies?

I'm the family historian and love to travel. Each year I take a vacation trip to Australia or New time to restore this house but I'm Zealand. And I like mountain biking - the Urban Wilderness is such an asset to the community.

What do you see as your main accomplishment in life?

Listing the house and farm on the National Register of Historic Places. It was a long process but thanks to Anne Bennett and a lot of cooperation from my family, we did it. There's more preservation action to come though, but that really set the stage.

How do you wish other people to

As someone who listens and only talk when I need to. Maybe they see me as someone who is very meticulous and deliberative.

Some see me as just the person who lives on this old family farm with a vision to carry out a plan.

If there was one thing you could do over in our life what would that be?

I wish I had moved to Knoxville earlier, to see the renovation take place downtown. My grandfather is 92 and on his last trip we went downtown. He got a private tour of the Tennessee Theatre. He had been a member of the "Popeye" club there as a child. We at lunch at Market Square and he very much liked the many improvements.

Can you choose one thing that you like the most about serving on BZA?

Hike it when it is not unanimous. I like the different people with different perspectives on it, and the civil, honest discussion. I never felt I was suppressed in remarking on an issue. I never felt brushed over. I'd like to serve on the Metropolitan Planning Commission.

Where's your favorite place to eat or your favorite meal?

I like Knox Mason downtown; it's a different style of restaurant with Southern roots and casual dining. I also make a pretty good beef tenderloin at home.

How would you like to be remembered?

I'd like to have a tombstone in our old family cemetery on the farm. I'd like to be remembered as someone who helped preserve a piece of history in our area. We're exploring ways to preserve this farm forever, including conservation easements and placing the property in a trust.

Jefferson among 66 players receiving 'first-team' recognition

By Steve Williams

Jahlil Jefferson was Mr. Touchdown in Knox County this past autumn.

The Webb School senior running back reached pay dirt 20 times but not all came on a rushing play. The 5-9, 180-pound Spartan caught two TD passes and also scored on a punt return, a kickoff return and a fumble return on defense. Jefferson, who finished

the season with 924 rushing yards on 144 carries, is one of the top offensive backs on The Knoxville Focus / Coaches' 2018 All-Knox County team. He also is one of 66 players to receive first-team rec-TSSAA-member schools in Knox County.

Jefferson's teammate, sophomore Elijah Howard, didn't have as many touchdowns, but he produced more long scoring plays with five TD runs covering between 44 and 72 yards and a TD catch of 62 yards. The fast and quick Howard averaged 11.4 yards per carry on 62 attempts.

The all-star backfield also includes Farragut's hard-running Kyle Carter.

Thomas Harper is the team's honorary offensive

captain. The talented Herd, the Region 2-5A with Oklahoma State, led the way in three catagories - touchdown receptions receiving yards (1,279).

But holiday tournaments help teams get such games, as well as serving as tune-ups for the upcoming James A. Ivey Jr. Memorial Middle School Basketball Tournament, which opens this week.

The Farragut Lady Admirals, the two-time defending tournament champions, got a chance to play Robertsville Thursday morning in the West Valley New Year's Tournament and things didn't go well.

Farragut shot poorly and committed 22 turnovers and looked like a young team in a 38-14 loss to the Lady Rams.

"We're young," coach Susan Davidson said. "We didn't shoot the ball well and we turned the ball over 22 times. But hats off to Robertsville.

Deshawn Page is the kind of football player any coach would love to have. Rob Black, Fulton High's head coach, would probably like to have 11 like him.

"Deshawn was so valuable to us," said Black, when asked what impressed him the most about Page during the 2018 season. "He made plays in all three phases of the game - offense, defense and special teams. He has the ability to take over a game and be an impact player every time he hits the

hours before the 2018 TSSAA Class 5A state championship game was postponed, Bryson Rosser made that time count and those minutes memorable.

"One of my fondest memories with this senior class will be sitting in the locker room at Tennessee Tech on Saturday night and waiting for the game to be decided after the extended weather delay," recalled the Central High head football coach Friday.

"We sat around in a circle in the corner of the locker room and talked about memorable stories, workouts, pun- ilege and honor of working ishments, jokes and quotes over the last four years. It was great to hear about all their journeys and to have it come full circle to that moment."

"I would like to thank my dad and Matt Buckner (Farragut head coach) for being great mentors to me throughout the years," added Byrd. "I owe them both a lot."

Byrd played for Buckner when he coached at Bearden.

Byrd replaces Mitch Turner, who now is the head coach at The King's Academy. Turner guided GCA to the Class A state title in 2015.

Grace Christian is now a member of TSSAA's Division II Class A District 1, which is regarded by many as one of the toughest districts in the state. Besides GCA, the district includes CAK, Concord Christian, First Baptist Academy, TKA and Webb School.

The OC Search That Never Ends

By Alex Norman

Who needs an offensive coordina-

That surely must be what the folks at the UT football complex are thinking these days. As of the writing of this article, 39 days had passed since Tyson Helton resigned as Tennessee's OC to take the head coaching job at Western Kentucky.

As a comparison, Derek Dooley memorably avoided the media for 38 days after the historic loss at Kentucky in November 2011, despite nearly his entire coaching staff resigning and multiple recruits decommitting.

Certainly the program is in better shape than it was in late 2011/early 2012, but a delay of this length is rather troubling.

By the time you read this, maybe Tennessee has an offensive coordinator. Or maybe they don't. What is clear is that the Vols went through the early signing period without one. Pruitt addressed that important development on December 19th.

"I'd rather talk about recruiting right now," Pruitt said at his press conference on the first day of the early signing period. "Ya know the offensive coordinator sometimes is overrated. You look, and you watch these teams out here, and there are some of these teams that it probably doesn't matter who the offensive coordinator is based off talent, or lack thereof. So I think the most important thing right now is recruiting."

In Pruitt's defense, you can make a case that a lot of positions are overrated. The head coach, the quarterback... they get too much credit when things go right and too much blame when things go wrong. But to say that one of his top two lieutenants isn't crucial to the success of a program is shortsighted. The OC role is probably even more important for Pruitt than the defensive coordinator position since Pruitt is a defensive guy. The offensive coordinator works more

At a place like Auburn, Gus Malzahn is the offensive coordinator, no matter who has the official OC title. But at Tennessee, they won't have as much meddling from the head coach.

The Vols OC has to figure out how to best use underutilized playmakers like wide receiver Marquez Callaway and running back Ty Chandler. They need to get quarterback Jarrett Guarantano to stop holding onto the football for that extra second or two that leads to a sack. And they must get the offensive line to protect Guarantano more effectively.

It would have been nice to have an OC on the job working on these things over the past 5-6 weeks, but that's not been the case.

All the names you have heard in this search are finding other jobs. Former Ole Miss HC Hugh Freeze is now the Liberty head coach. NC State OC Eli Drinkwitz is the head coach at Appalachian State. Auburn's OC Chip Lindsey joined Les Miles at Kansas. Oklahoma State's OC Mike Yurcich jumped to Ryan Day's new staff at Ohio State.

Pruitt is doing his due diligence here. He's not going to be rushed into a hire. Pruitt has the full support of his athletics director, Phillip Fulmer, who knows better than anyone just how important this decision will be. In 2008, Fulmer hired Richmond head coach Dave Clawson to replace David Cutcliffe, who was leaving to take the head coaching job at Duke. The Vols offense was a disaster in 2008. Despite having a lot of talent, they just never meshed with Clawson's system. That led to Fulmer's firing at the end of the season. But enough is enough. National

signing day is a month away. Spring practice gets underway in March. Pruitt needs to make a decision and close a deal with his new offensive coordinator.

It's beyond time.

Hebrew scribes painstakingly wrote the ancient stories onto scrolls of animal hides, usually sheep, occasionally cows or deer, but never pigs who were considered "unclean." The first five "books" on one scroll were called a Torah and was more than one hundred and fifty feet long! Any mistake, such as a letter touching another letter, would cause the entire panel of three, if not four, columns of text to be discarded along with the adjacent panel! When you hear that scripture is altered over time, consider meticulous and reverential work of ancient scribes and compare their work with today's media.

My daughters read books to my grandchildren every night. Studies have shown the benefits of reading to your children. I'm not aware of any similar research showing developmental benefits from an iPad or video game. You would think kids might have improved hand-eye coordination from gaming, but you'd have to balance benefit against violent

images and non-reality situations. I grew up on Looney Tune cartoons and Captain Kangaroo. I turned out OK. By comparison, my two year old granddaughter "reads" "Moby Dick" and "Jane Eyre" for toddlers. I suspect she'll do just fine, though she might lag in appreciation of classical music instilled in me by Merrie Melodies Cartoons and Heckle & Jeckle.

In antiquity few could read and communication was principally aural. With education and Gutenberg's printing press and then cinema, communication became visual. Recently, I experienced VR (virtual reality) at a friend's home. The experience was somewhat like the Regal Cinemas video enticing you to buy popcorn by taking you visually on a roller coaster.

I'm not a fuddy-duddy, but VR is not for me. Though I think the next leap of humans may be the virtual interface of machines and man, my reality is here and now with my Lord, my wife and my family. There's plenty to occupy my mind and fill the library of a life.

Three scouts achieve Eagle rank

Scoutmaster Scott Newby Troop 448, on November 17, 2018 presided over the Eagle Court of Honor awarding the eagle rank to Trent Pyles, Isaac-Ion Gabriel Stout and Justin Nolan Thompson (pictured above). The ceremony was held at the Trinity United Methodist Church with special guest Mr. Anthony Hancock

Eagle Scout is the highest

advancement rank in Boy Scouting. Since 1912 more than two million Boy Scouts have earned the Eagle Scout rank. In the words of the Eagle Scout Promise, Eagles do their best each day to make their training an example, their rank and their influence court strongly for better citizenship in their troop, in their community, and in their contacts with people.

Parrott-Wood Memorial Library Receives a \$1,000 Community Grant from Walmart

Walmart general manager Joe Gibson was also able to give a great discount on a 70" Smart TV for the library for educational programs. The \$1,000 grant will be used for Summer 2019 STEM Programs (Science, technology, engineering and mathematics). STEM programs are very important when it comes to the development of children and youth. These educational programs will produce critical thinkers, team players,

innovators and better prepare our future leaders.

Donna Phillips, library director, would like to thank Walmart for supporting Jefferson County Public Library System's educational programs for over 18 years. Phillips stated without grants and in kind donation from local businesses, Parrott-Wood Memorial Library could not provide excellent enrichment programs for the community.

HERB ROASTED ORANGE SALMON

2 tbsp. olive oil

Salt and coarsely ground black pepper to taste

1/4 cup fresh orange juice 4 (8 oz) salmon steaks

Finely grated zest of one orange

2 tsp. fresh chives, chopped

2 tsp. garlic, minced 2 tsp. dried tarragon

Mix marinade: In a bowl, combine the olive oil, orange juice, orange zest, garlic, tarragon, salt and pepper. Add salmon to marinade for one hour at room temperature, tossing once or twice. While fish marinates, preheat oven to 475°. Place the salmon in an ovenproof dish and pour marinade on top. Bake for 7 to 8 minutes or until salmon is just cooked through. Turn and bake 7 to 8 minutes. (Fish should flake easily when tested with a fork.) Carefully remove to a serving platter and sprinkle each piece with ½ tsp chives. Serves 4.
