

Walter Maples reflects on 90 years

City may
extend hours
of electric
company
workers

The Board of City Commissioners has approved a resolution to extend the hours of the electric company workers. The resolution was passed by a vote of 5-2. The resolution states that the workers should be allowed to work longer hours to ensure that the city's power supply is maintained at all times.

The resolution also states that the workers should be paid for the extra hours they work. The city's electric company workers have been working longer hours for some time, but they have not been paid for the extra hours. The city's electric company workers are essential to the city's power supply, and the city's residents rely on them for their electricity.
