Homeowners, business owners and facilities in the Forks of the River Industrial Park have a new fire station. Rural Metro Fire officially opened their new facility, Fire Station 27, at 5454 Strawberry Pike just off Governor John Sevier Highway, just before Christmas.

Fire Chief Jerry Harresh spoke briefly and, along with several elected county officials, cut the ribbon on the new facility. Harresh said it is the first new station in three years and thanked several people, including the community, for their support.

The fire station was formerly located in Industrial Park and the new location, according to Harresh, improves response time and reduces insurance premiums. The new fire station houses a pumper and a quid truck that carries specialized equipment for hazardous material incidents and

Old South High School's transformation to South High Senior Living is progressing nicely! The conversion of the old school, which was built in 1937 and closed following the graduation of the class of 1976, is quickly transforming into the vision of Dover Signature Properties.

Dover Signature Properties is developing a new Assisted Living and Memory Care community to be managed by Integral Senior Living when completed in April 2020. The project is estimated at \$12.2 million to renovate and renovate the 42,000-square foot building.

Heleen Porter, executive director of South High Senior Living, toured the renovations last week and is excited about the progress. She is a certified dementia
