

San Joaquin County health department staff are working around the clock to address COVID-19 testing delays.

# County seeking solutions to overwhelming testing response

By Mike Hardy  
Times Staff Writer  
mike.hardy@timesonline.com

After the San Joaquin County health department began the coronavirus testing, an influx of the county's 10 growing and home health care centers, the response and overwhelming response was huge again. "We're not able to do it," said the health department. "We're not able to do it," said the health department. "We're not able to do it," said the health department.
